Henry 02 – X  
Strauss 03  
with  
Project  
Cure

Send medical  
supplies to the  
earthquake-  
devastated region  
of Bhuj.

PAID 2002-2003. Although this project was approved in Oct. of 2002, there were troubles with the Indian government and customs approving the arrival of supplies. Interim report filed 4/5/04. Finally approved by India's "FBI" (to avoid paying taxes). Interim report filed by Henry, March 2006. Two containers shipped. The shipment of the final container pending. Pictures have been sent to Henry. The second container arrived 2/21/2007. Henry submitted yearly report to TRF 2007; TRF report has been received and accepted. Report lost by TRF and re-submitted in April; approved by TRF with warning that we should not be turning over project funds to other nonprofits. Grant Wilkins working on this issue. 4/08 – Hank says "As the committee knows the host club got into great difficulties on the customs. Now there has been a change in the leadership of the Bhui club. There is some question whether they want to have the third container. Project Cure is in the process of trying to work the problem out and will keep us informed as to how it's working out." The problem is that the custom tariff is more than the local Club can pay. 5/8/08 Hank says he will file the Progress Report today. 6/14/08 The District Governor in India is working on the placement of the container. 6/26/08 The India District Development Officer is interested in receiving the third container and needs a list on contents. Project Cure responding.

Mbujimayi, Congo	100	million. The hospital is staffed by local physicians and nurses supplemented by a Catholic Volunteer Agency. A bore hole has already been drilled to 65 meters where clean water has been found. This project will complete the well. Father Gaston Muyombo, the local parish priest, is the driving force behind the construction of the hospital, as well as, a church and school.	He found it had been working for two weeks, treating about 100 patients a day. Our project means the hospital now has clean water, a rarity in this region. Unfortunately the hospital has limited capacity, and twice the number served must be turned away.

Date approved by WCSC: 12/11/07  
Paid – Date of Check Request: 10/14/08                      Annual Report Due Date:  
Date Project Completed:  
Date of Final Report:

Denver RC - Lead	\$2,234	Joe Jensen	07-	AIDS involves 20% of the people in South Africa. It mostly affects people between 15 and 50 and is a great challenge to the economy. Youth will be trained for both a school and a door to door campaign. The focus will be on delaying sex and, if there is involvement, the use of condoms. AIDS testing is also encouraged since a person can be carrying the HIV virus for 5 years and be symptom free. <u>As of 07/18/08, Host Partner not current on reporting requirements for another project; other concerns raised by RI.</u>

**LADAKH, INDIA DENTAL RELIEF PROJECT**

Date approved by WCSC: 8/12/08

Paid – Date of Check Request:

Date Project Completed:

**Matching Grant Number: 69722**

Annual Report Due Date:

Denver RC	\$4,000	Frank King,	07-	The Himalayan Dental Relief Project brings dental volunteers overseas to provide first-time dental care to children in need. Treatment and preventive care is provided in seven-day camps, organized to serve children in orphanages, charity schools and remote villages. Ladakh is a harsh, remote region accessible by road only during the warmest months of the summer. The project would provide 3 new dental stations equipped with chairs, dental units, compressors and other required equipment. The time table is to have the equipment shipped to India for full camp expansion by may 2009.	The Buffalo Grove, IL RC has agreed to be a partner. The proposal has been approved by their District, 6440, which provides a 1.5:1 match. It is also been approved by Dist. 5450, and is being reviewed by RI.

**BURKINA FASO HAND PUMP PROJECT**                      **Matching Grant No. 69346**  
Date approved by WSC: September 8, 2008  
Date of Progress Report:  
Date Project Completed:  
Date of Final Report:

Denver Rotary	\$4,000	Bill Korstad,	07-	The people of Burkina Faso desperately need better water resources. They suffer from many water-borne diseases. Women in the villages must walk several kilometers just to find any water. This restricts their ability to otherwise contribute to village life.	The goal of this project was to dig 3 or 4 boreholes and install pumps in the community of Zabre, a village in southeastern Burkina Faso. A village board will provide oversight, and each family using the pump will be required to contribute to a replenishment fund. Bill Korstad has now raised enough money for 5 wells. We have sent in a check request for \$58,883. The project has been completed as of 2/25/2009.
